Occupation

Dale has been a farmer and auctioneer all his life. Dales children are now managing the land and fundraiser auction business

Hobbies: Hunting, deer and pheasant

Singing, advertising in parades and entertaining at numerous religious & community events

Primary goals as a director: To continue our Co-op operating as smoothly and efficiently as it has operated for many years

As I sat in my grandfathers lap he told me electricity came to our farm in 1937 and it has been our greatest power source since that time

What do you see in the future for Kandiyohi Power Cooperative? We must keep electrical power operating with the effective uses of resources within a manageable budget. Outages must be repaired as they have been in a short amount of time.

Additional Comments: I have always been interested in electricity and now have time to gain more knowledge about the Kandiyohi Power Cooperative

The years I have spent working in the auction business has given me experience working with individuals and families at an important time in their lives - the time of their auction
