

Kandiyohi Power Cooperative

2026 DISTRICT 3 DIRECTOR PROFILE

3 YEAR TERM

Logan Kalkbrenner

Profile: My wife and I are raising our five young daughters here in the community, with our oldest being six. Family is our top priority, and we are grateful to be back home raising our children close to relatives and neighbors. I own and operate a local tree service and handyman business, serving both residential and agricultural customers. My faith plays an important role in my life and guides my values, work ethic, and commitment to serving others.

Hobbies: I enjoy the typical guy things like hunting, fishing, and spending time outdoors with my family. I also enjoy old vehicles, painting cars, ATV/dirt biking. Staying active and creative while sharing these experiences with family and friends is what I enjoy most.

Primary goals as a director: As a director, my goal is to represent the interests of all members and ensure the cooperative continues to provide reliable, affordable, and safe service. I hope to bring a practical, hands-on perspective from my 15 years experience in the co-op world and local community, helping guide thoughtful decisions on system improvements, long-term planning, and member engagement. I also aim to promote transparency, community involvement, and a culture of service that reflects the values of the cooperative and the families it serves.

What do you see in the future for Kandiyohi Power Cooperative? I see the co-op continuing to provide reliable, affordable service while adapting to new technologies and member needs. I hope it remains community-focused, investing in its infrastructure and supporting local families and businesses, so it can thrive for generations to come.
